# One Voice Coalition Directory

# OUR HISTORY AND STEWARDSHIP

The One Voice Coalition was initiated in 2019 by the English–Speaking Catholic Council (ESCC) and Catholic Action Montreal (CAM) “to improve access to healthcare and decrease social isolation” for English–speaking seniors. Then, during the pandemic, the Coalition exploded in size and energy, as senior care came under siege. This was a time when information was urgently needed and not often available. There was a clear need to band together, try to make sense of the rapidly shifting landscape, and create “one voice” to demand support.

After the pandemic, stewardship of the Coalition transitioned to **Seniors Action Quebec** in 2022, who then partnered with **Community Health and Social Services Network (CHSSN)** to lead the process of collective reflection that generated the current statement of mission, principles and vision. The 2023/2024 collective reflection process made it clear that One Voice should not be structured and managed as a Seniors Action Quebec program. If it is to deliver on its potential, the Coalition must be co–created by participants “in a spirit of partnership and mutual responsibility.” This means:

- Seeking to create the conditions for participation, commitment, self–organisation and emergence of new possibilities.
- Cultivating a culture of care and connection, taking shared responsibility not only for what happens, but for how it happens.
- Taking guidance from the mission, principles and vision in determining actions and evaluating how well we are living up to our intentions.

**Lead Stewards:** In this spirit, Seniors Action Quebec has taken on lead stewardship of the Coalition, with partnership from CHSSN. That means:

- Seniors Action Quebec will provide resources to support Coalition meetings, as well as staff time to coordinate core Coalition activities and communications.
- CHSSN will provide support through staff time and occasional funding of meetings and other expenses.
- Both will explore whether there is a need to distinguish between when they are in a stewardship role (contributing process) and when they are in a participant role (contributing content, like any other participant).

**A Rotating Co-Stewardship Team:** The emerging vision is that a small number of other participants will serve as co–stewards on a rotating basis. The exact number, selection method, term length and responsibilities of co–stewards is to be determined.

# WHAT IS THE ONE VOICE COALITION

We are the One Voice Coalition, diverse people from a wide range of community organisations actively supporting and representing English-speaking older adults and seniors in the Greater Montreal area.

We come together in order to:

## Coordinate, cooperate and collaborate

- Leverage our collective experience and lived experiences
- Share stories, information and resources
- Mobilise around issues, challenges and opportunities
- Broaden our networks, and foster collaborative projects.

## Like a village:

We do this in a spirit of partnership and mutual responsibility, gathering in ways that inspire growth, collaboration and hope, and embracing the power of our diversity to nurture creativity and shared learning.

## This is our vision:

Personally and professionally, we are each nourished by relationships and mutual support, knowing we are not alone.

English-speaking older adults and those who assist and accompany them are supported within a vibrant space of agency, connection and care.

Our organisations are better connected and equipped to achieve their mandates.

All members of the greater community value and embrace the aged and the process of ageing.

We are stronger and wiser together.

## MISSION AND VISION

### Mission:

- The English-Speaking Catholic Council is reclaiming its role as the unifying voice of Montreal's English-speaking Catholics-mobilizing leadership, fostering collaboration, and building a connected, mission-driven community.

### Strategic Vision:

- The ESCC is going back to its roots and evolving from being primarily a supporter of partner projects to becoming a central hub and voice for the English-speaking Catholic community. Our renewed focus on fostering connection, collaboration, and leadership development will aim to strengthen the community, address its needs more effectively, and build unity across ministries, parishes, and organizations.

# New Hope Senior Citizens' Centre

## MISSION AND VISION

New Hope Senior Citizens' Centre is a community-based non-profit organization dedicated to serving seniors in Notre-Dame-de-Grâce (N.D.G.).

We strive to create a welcoming space where seniors can stay active, engaged, and connected through a variety of social and community-based programs. By encouraging volunteerism, civic participation, and access to essential services, New Hope works to reduce isolation and promote the overall well-being of our aging population.

We offer a vibrant day program with a range of physical, artistic, and social activities. Our kitchen serves fresh, nutritious community lunches on Mondays and Wednesdays, bringing people together over a warm meal.

For those unable to join us in person, our Meals on Wheels program delivers delicious, home-cooked meals to residents of NDG and Côte-Saint-Luc on Tuesdays and Thursdays.

## MISSION AND VISION

The East Island Network for English-Language Services-REISA is composed of community and public partners who work to develop and promote access to English-language health and social services in the East and North of Montreal.

English-speaking communities in the east and north ends of the island represent a significant 17.8% of the area's population. However, it is common that the needs of these communities are overlooked. REISA seeks to promote access to health and social services in the English language in areas where minority groups are more comfortable receiving services in English than in French.

Our programs:

**NPI:** designed to support Quebec's minority English-speaking communities in improving and maintaining access to the full range of Health and Social Services.

**Outreach:** REISA's outreach activities are designed to support community health and social services networks in their outreach efforts, to better identify and engage vulnerable and often hard-to-reach English speakers. REISA supports activities such as:

- Information gathering/studies to better understand needs;
- Offering information and referral;
- Navigation of services;
- Accompaniment;
- Communications and advocacy;
- Outreach initiatives designed to improve overall health and well-being of this clientele; and
- Informing and supporting health and social service providers to better reach and serve vulnerable English-speaking populations.

**SWI:** Health education and health promotion activities for English-speaking seniors in Saint-Laurent. These sessions are designed to increase access to knowledge of health and social services and decrease social isolation through purposeful and informed programming.

## MISSION AND VISION

The SSCPNN helps individuals and community-based organizations and services by:

- Supporting community-based initiatives and services
- Supporting a range of programs and networking outreach aimed towards the English-speaking population on the South Shore
- Aiding Community organizations in promoting their programs
- Providing general awareness and assistance at all levels of Government benefit programs,

i.e., Senior and Family Tax Credits and information on government assistance programs.

- Information and referral about a range of local services – Meals on Wheels, Day Centre, Caregiver support, Home Care Services (Private and Public), Seniors Clubs, Exercise programs, Health awareness, social groups (Arts-Culture-Life Long Learning), individuals and private agencies that provide support services ....
- Providing assistance when choosing a seniors' residence, homecare, nursing centres with English services along with very general advice when navigating the health system.

We provide these services for families and friends of loved ones who may be living outside of the South Shore or even outside of Quebec. We can help by explaining local services, programs, how to access them and make referrals. We host sessions and post information on programs and services in the English-language.

The South Shore Literacy Council is a non-profit organization dedicated to offering free literacy programming. We offer literacy tutoring for adults, a Care-Share Program for adults with developmental delays, the Mother Goose Pre-Literacy Music Program for parents and their infant children ages 0-4) and inclusive senior programming.

We are committed to life-long learning. We are committed to improving the quality of life through transmitting basic literacy skills.

## MISSION AND VISION

Our mission is to reduce social isolation of vulnerable groups in downtown Montreal. Over the decades we have come to mean so many things to so many people. We are a place to receive support, to find resources, to socialize, to discover new skills, to truly connect with others, to be part of a larger community. We are a place for all ages to come together.

The Yellow Door evolved out of the YMCA of McGill University founded in 1887 whose work was assumed by the Student Christian Movement of Canada in 1928. In the late 1960s, the Yellow Door Coffeehouse grew out of an initiative of the Student Christian Movement and was staffed by local artists and provided a showcase for music and poetry. The Coffeehouse also played an active role in the community, and between 1967 and 1971, a lunch program served meals to war resisters, students, the elderly and itinerant persons. From 1970 to 1972, in response to the counterculture drug scene, a drop-in psychiatric clinic was set up and Douglas Hospital doctors counseled youth with drug addictions. As the longest-running coffeehouse in Canada, the Yellow Door Coffeehouse has become a landmark while remaining a lively folk music and spoken word venue.

In 1972, the current Generations program was started as the result of a Local Initiatives Projects grant that was used by a group of McGill students to conduct a door-to-door survey of the elderly residing in the community. The program has been maintained with the help of grants from Centraide, the Quebec government and the generosity of private individuals and corporations.
